## Adjustable Comfort

Introducing our exceptional adjustable bed bases, available in both divan and leg configurations, combined with a diverse range of 18 mattresses. These motorised profiling bed frames offer a unique and customisable support system, specifically designed to cater to different areas of the body, promoting superior comfort and well-being. The multi-slat motorised system adapts to exerted pressure, providing improved back support and facilitating even distribution of pressure, thereby enhancing blood circulation. With the added benefit of sliders for tension adjustment in the lumbar region, users can easily personalise their support preferences, effectively relieving minor aches and pains.

The bed bases feature strategically placed gaps that allow for optimal air circulation beneath the mattress, ensuring a fresher sleeping environment for an extended period. Experience the ultimate blend of comfort, support, and customisation with our motorised adjustable profiling bed frames and mattress combinations.

*Standard Single - 3ft*

*Large Single - 3ft 6in*

*Small Double - 4ft*

*Standard Double - 4ft 6in*

*Kingsize - 5ft*

*Super King - 6ft*

Choosing the right size for an adjustable bed is essential to ensuring both a comfortable night's sleep and the proper functioning of the adjustable features. The size of the bed you need can depend on a variety of factors, such as the available space in your bedroom, your body size, whether you sleep alone or with a partner, and your personal comfort preferences. Before choosing an adjustable bed size, it's important to measure your room to ensure that the bed will fit comfortably, leaving enough space for other furniture and to move around easily.

Remember, your comfort is paramount. An adjustable bed is a significant investment in your sleep quality and overall health, so take your time to choose the size that will best suit your needs.
